

Neuro-otology Society of Australia 19th Annual Meeting

Royal Brisbane Hospital 16-17th October 2009

FINAL PROGRAM

S1. Friday 9.00 – 10.20 Chair: Halmagyi

9.00	Pickles (Brisbane)	The aging cochlea
9.20	Brichta (Newcastle)	Secrets of the labyrinth
9.40	Mcdougall (Sydney)	What is special about the vestibulo-ocular reflex
10.00	Low Choy (Gold Coast)	How the vestibular system helps you stay upright
10.20	Break	

S2. Friday 10.40 – 11.55 Chair: Lomas

10.40	Strupp (Munich)	History and examination of the dizzy patient
11.40	Strupp, Halmagyi, Pohl	Panel discussion
11.55	Pohl, Ell	NOTSA business meeting
12.30	Lunch	

S3. Friday 2.15-3.45 Chair: Waterston

2.15	Chen (Melbourne)	Isolated vertigo in stroke
2.30	Strupp (Munich)	Hippocampus as a spatial navigator
3.15	Hegemann (Zurich)	Neural integrator
3.30	Welgampola (Sydney)	Omniax treatment of BPV
3.45	Colebatch (Sydney)	Fundamentals of the VEMP
4.15	Break	

S4. Friday 4.45-6.00 Chair: Colebatch

4.45	Colebatch (Sydney)	AC VEMP: best waveform and how it should be measured.
5.00	Cheng (Taipei)	Acoustic, mechanical and galvanic oVEMPs
5.15	Wang (Taipei)	Optimizing cVEMPs and oVEMPs
5.30	Rosengren (Sydney)	Sensitivity of VEMPs to the direction of head acceleration
5.45	Taylor (Sydney)	VEMP in Meniere's
6.00	Finish	

S5. Saturday 8.30-10.30 Chair: Brichta

8.30	Szmulewicz (Melbourne)	Audiovestibular sarcoidosis
8.45	Strupp (Munich)	Treatment of vertigo, dizziness and nystagmus
9.30	Welgampola (Sydney)	Postural responses in Schwannoma
9.45	Akdal (Izmir)	Posture in Migraine
10.00	Silburn (Brisbane)	Shaking and swaying
10.15	Banney (Brisbane)	Mal-de-debarquement
10.30	Break	

S6 Saturday 11.00 – 1.00 Chair: McMahon

11.00	Brown (Sydney)	Helicotrema blockage and hydrops
11.15	Hugo (Zurich)	Impulsive testing of canal function
11.30	Pedley (Brisbane)	Cochlear implant audit
11.45	McNeill (Sydney)	Hearing fluctuation in Meniere's
12.00	Brown (Sydney)	Far-field potentials and the origins of response waveforms
12.15	Hegemann (Zurich)	Superior canal dehiscence
12.30	McNeill (Sydney)	Hearing preservation in Meniere's
12.45	Lunch	

S7. Saturday 2.00-3.15 Chair: Welgampola

2.00	Young (Taipei)	oVEMPs in guinea pigs
2.15	Wu (Taipei)	Impulse noise and cochlear, saccular function
2.30	Govender (Sydney)	AC and BC cVEMPs and oVEMPs in vestibular neuritis.
2.45	Cai (Sydney)	Frequency and polarity in BC VEMPs and OVEMPs
3.00	Curthoys (Sydney)	Fz BC oVEMPs
3.15	Break	

S8. Saturday 3.45-5.30 Chair: Pohl

3.45	Strupp (Munich)	Videoquiz on ocular and vestibular disorders
4.30	Winoto (Melbourne)	Otolith specific exercises
4.45	Sharpe (Adelaide)	Vestibular rehabilitation questionnaire
5.00	Chen (Melbourne)	WEBINO
5.15	Finish	

The operating system in the Education centre is WINDOWS XP. Please advise if you will be using any other operating system to make sure your presentation will work with the equipment provided.

Posters

Feasibility of the simultaneous ocular and cervical vestibular-evoked myogenic potentials in unilateral vestibular hypofunction (Poster Section)

Chen-Han Chou^a, Shou-Jen Wang^{a,b}, Yi-Ho Young^a

^aDepartment of Otolaryngology, National Taiwan University Hospital, Taipei, Taiwan

^bInstitute of Biomedical Engineering, National Taiwan University, Taipei, Taiwan

Optimal repetition rate of bone-conducted vibration for eliciting ocular vestibular-evoked myogenic potentials (Poster Section)

Chih-Ming Chang, Po-Wen Cheng and Yi-Ho Young*

Department of Otolaryngology, Far Eastern Memorial Hospital, Taipei, Taiwan

Department of Otolaryngology, National Taiwan University Hospital, Taipei, Taiwan*
